## Structured wiring systems by NAPCO

The smart, money-saving system to incorporate security & structured wiring.

SECURI-SMART

Securi-Smart® Structured Wiring System Overview:

- Unique Dual Door Aluminum Enclosure models with **locking dedicated security compartment** – eliminates interference by consumers and contractors.

- Labor- and money-saving patented wiring module combines voice & data lines together for **fewer wiring runs** – eliminating 1 run/room, typical.

- All inclusive, **turnkey structured wiring kits** available preconfigured with **Gemini Systems** and all necessary modules, brackets, amps,etc. – eliminates guesswork and missing components.

- Convenient, prepacked termination kits for each room

Hinged dual door aluminum enclosure: Accessible structured wiring hub on top; locking dedicated security compartment below.

Securi-Smart NET8

- Securi-Smart NET8, the only wiring system on the Market that provides for 2 Telephone Lines and a 10/100 Base Ethernet connections over a single CAT5e wire.

- Unique technology adds built-in computer networking capability to the residential account virtually at no extra cost!

- Labor- and money-saving single wire technology

- Plus, a full line of additional Securi-Smart Modules necessary for efficiently linking voice, data and splitting and amplifying video, are available, too (see reverse)

SMCAT5T2/D6

NAPCO exclusive turnkey kits

Easily, eliminate guesswork with all inclusive kits

- Preconfigured enclosures with and without mounted Gemini Systems, including Securi-Smart NET8 Tele/Data Module, necessary brackets, video distribution center module, grommets, locks, dust cover, etc. No more missing components and inventory issues!

- Turnkey Security Kits with preinstalled P801 and P1632 Gemini Hybrid Security Systems.

Securi-Smart Turnkey Kits with everything you need included – even Gemini Security

S14KDVTSECKT	801 Turnkey Security/Structured Wiring Kit 1
	14" Hinged Door Aluminum Enclosure with Dust Cover
	Securi-Smart NET8 Module combines data/voice into single CAT5e wire
	4-Way Standalone Video Passive Distribution Center
	NAPCO GEM-P801 9 Zone Security Panel (pre-bracket-mounted), w/transformer

S1212D/ DVTSECKT	1632 Turnkey Security/Structured Wiring Kit 2
	Hinged Dual Door Aluminum Enclosure with 12"x12" Dedicated, Locked Security Cabinet & 12 x12" Voice/Data/Network Cabinet (includes dust cover)
	Securi-Smart NET8 Module combines data/voice into single CAT5e wire
	4-Way Standalone Video Passive Distribution Center
	NAPCO GEM-P1632 8 to 32 Zone Security Panel (premounted), w/transformer

S14DVT-KT	Turnkey Structured Wiring Kit 3 (Single Door)
	14" Single Hinged Door Aluminum Enclosure with Dust Cover
	Securi-Smart NET8 Module combines data/voice into single CAT5e wire
	4-Way Standalone Video Passive Distribution Center

S1212D/DVT-KT	Turnkey Structured Wiring Kit 4 (Dual Door)
	Hinged Dual Door Aluminum Enclosure with 12"x12" Dedicated, Locked Security Cabinet & 12 x12" Voice/Data/Network Cabinet
	Securi-Smart NET8 Module combines data/voice into single CAT5e wire
	4-Way Standalone Video Passive Distribution Center

Manufacturing great security products is all we do. It's that simple.™

NAPCO

Structured wiring systems by NAPCO

The smart, money-saving system to incorporate security & structured wiring.

SECURI-SMART.

Securi-smart network & security enclosures & rough-in kits

- Deluxe extruded aluminum rough-in kits & enclosures.
- Hinged doors (no cumbersome lids to unscrew or re-hang).
- Flexible screw-rail mounting system universally supports most component brands
- Powder-coated hinged door and dual door models
- Unique Dual Door Aluminum Enclosures with locking dedicated security compartment, keeps security system integrity safe from consumers and other contractors.
- 3 single door and 3 dual-door enclosures available with companion dust covers: 14", 18", 24" and 12"x 12", 24" x 12" and 24" x 24" dual door models. (Rough-in kit: suffix "-RK"; dust cover suffix "-C").
- Include anti-chafe grommets

COMPARE:	Typical	Network Wired	Securi-Smart NET8
Installer Dealer	Electrician	Low Voltage Integrator	Low Voltage Alarm Dealer
Television	Yes	Yes	Yes
Phone	Yes	Yes	Yes
Computers	No	Yes	Yes
Cost	$300	$1000	$375
Added cost for computer network	N/A	$700	$75

Securi-Smart individual component ordering information:

ROUGH IN KITS	Rough in Kits (RK) , grommets and power strip (D- dual door)
S14-RK	14" Single Door
S18-RK	18" Single Door
S24-RK	24" Single Door
S1212D-RK	12"X12" Double Door
S1412D-RK	24"x12" Double Door
S2424D-RK	24" x 24" Double Door

COVERS	Dust Covers
S14-C	14" Single Door
S18-C	18" Single Door
S24-C	24" Single Door
S1212D-C	12"X12" Double Door
S1412D-C	24"x12" Double Door
S2424D-C	24" x 24" Double Door

MODULES	Modules: (KEY: m-module, t-telephone, d-data, v-voice, CAT5; numbers line "in" vs. "out")
SMT4/6	Telephone only board. 4 incoming telephone lines - 6 telephone outlets with RJ45 test point/alarm interface jack
SMT4/6V4	Telephone/TV Board. 4 incoming telephone lines - 6 telephone outlets with RJ45 test point/alarm interface jack - 4 way 5-1000 MHz TV splitter
SMT4/7D6	Telephone/data board. 4 incoming telephone lines - 7 telephone outlets - 6 data outlets with RJ45 test point/alarm interface jack
SMTD6	6 outlet data board only
SMCAT5T2/D6	Securi-Smart NET8 Module combines data/voice into single CAT5e wire
SMV4	Voice module, 1GHz 4 way single
SMV6	Voice module, 1GHz 6 way vertical
SMV8	Voice module, 1GHz 8 way vertical

TERMINATION KITS	Termination Kits: (KEY: t- termination; /-or; 1 thru 5, m-mud)
ST1-V/T	Termination Kit 1 TV/Tele
ST2-D/V	Termination Kit 2 TV/Data
ST3-DVT	Termination Kit 3 Dual Tele/data
ST4-MT	Termination Kit 4 Wall Mount Tele
ST5-MM	Termination Kit 5 Low Volt Prewire (mud ring)

VIDEO AMPLIFIERS	
SVA1/8	High-performance video amplifier, 1 input by 8
SVA3/8	High-performance video amplifier, 3 inputs by 8

BRACKETS	
SBKT1	Bracket for P816, P1632 Security Systems
SBKT2	Bracket for P3200, P9600 & X255 Security Systems

Note: P801 does not require a mounting bracket
